

The University of Michigan Comprehensive Diabetes Center is a world leader in understanding, preventing and treating diabetes and its many associated complications.

The need for solutions is urgent. Diabetes affects more than 25 million Americans, 8.3 percent of the population. Another 79 million have a high risk of developing the disease, which is ranked seventh overall as a cause of death.

The promise of the future is bright. Building on a strong history of discoveries, U-M is making significant breakthroughs by forging new links between clinical and

research programs. They are dedicated to translating scientific discoveries into new treatments as quickly as possible.

The Rugiero family is a critical partner. The Rugiero Casino Royale Event and Antonio Rugiero Sr. Diabetes Research Fund fuel cutting-edge projects and innovative investigations that otherwise may not be possible.

Together, we can achieve our ultimate goal: reverse the course of the disease to save lives.

**THE RUGIERO FAMILY**, owners of five Italian restaurants in the metro Detroit area, created the Antonio Rugiero Sr. Diabetes Research Fund in the University of Michigan Comprehensive Diabetes Center. The fund honors the memory of Antonio Rugiero — cherished husband, father and grandfather who lived with type 2 diabetes for nearly 40 years.

*"We are grateful to all our friends and family who join with us to support this great event honoring my father. The University of Michigan is a world leader in diabetes research. Partnering with the U-M for the sixth year, together we can find a cure! I know my father would be proud to see all of this support."* —Antonio Rugiero

The Rugiero Family: Patrick, Anthony, Enrica, Antonio Sr., Mark and Robert

*Help us celebrate our sixth year raising money to find a cure for diabetes!*

*Saturday, November 12, 2016*

**GAMING**
